## UV OVERCOVER INSTALLATION INSTRUCTIONS

## UV Overcover must be installed over pool blanket when on roller!

Failure to do this will shorten the life of the blanket and void warranty.

Roll blanket onto roller and place the UV Cover over the blanket

If there is a great deal of excess UV Cover, cut the material slightly longer than the pool blanket, ensuring it protects the full width of the blanket.

We also recommend leaving a 100mm overhand.

To keep the UV Cover in place, use the 3x adjustable straps provided to secure the cover over the blanket.
