

Oasis CX Logix

pH control system

The perfect companion for the CX salt and mineral system.

No need to worry about monitoring and adjusting the pH of your pool water manually with this innovative controller that effortlessly maintains it for you, completely eliminating the need for a probe.

By utilizing a sophisticated algorithm, the controller accurately determines the precise dosage of acid required to maintain your pool water within the recommended pH range. This carefully calculated amount is then automatically dispensed through a single peristaltic pump, ensuring that your pool's water chemistry remains consistently balanced, optimizing the effectiveness of the sanitiser.

- Automatic dosing to maintain safe pH / acid levels
- ✓ No probe or calibration required
- **✓** Suitable for all pool surfaces
- Strong & durable commericalgrade peristaltic tube and roller
- Easy installation plug and play
- **✓** Simple to operate
